## Fullstack Developer

A Fullstack Developer with hands-on experience in designing, developing, and launching high-performance web and mobile applications. Proficient with the MongoDB, Express, React and Node (MERN) stack and Python's Django framework. I have a foundational knowledge of Artificial Intelligence and a passion for using Large Language Models (LLM) to build innovative and user-focused solutions. I am a collaborative team player committed to clean code, agile project management, and continuous professional growth.

---

## Experience

Interact Health PRO | Toronto, ON, Canada

Junior Fullstack Developer | March 2025 - July 2025

- Took part in the full-stack development of web and mobile applications using React, React Native, and Node.js, which contributed to a more engaging user experience.
- Built backend services with Node.js and Express.js, integrating them with MongoDB and third-party APIs to ensure reliable data flow.
- Worked within an Agile team to translate project requirements into technical specifications and deliver user-friendly features.
- Enhanced application reliability by conducting testing, debugging, and code reviews to maintain high-quality code standards.

BlitzTech Electronics | Harare, Zimbabwe

Junior Software Developer | February 2024 - February 2025

- Developed and maintained RESTful APIs for an e-commerce platform using Python, Django, and the Django REST Framework, supporting thousands of daily transactions.

- Built responsive front-end components with React.js, managed application state with Redux, and styled with Tailwind CSS.
- Contributed to software architecture discussions, focusing on creating modular and scalable components to improve long-term maintainability.
- Managed project version control using Git and GitHub and assisted in deploying applications.

---

## Technical Skills

Category	Skills
Languages	JavaScript (ES6+), Python, C#, HTML5, CSS3
Frontend	React.js, React Native, Redux, Angular, Bootstrap, Tailwind CSS, Axios
Backend	Node.js, Express.js, Django, Django REST Framework
Databases	MongoDB, SQL (basic)
Cloud & DevOps	AWS (basic), Git, GitHub, CI/CD, RESTful APIs
AI & Machine Learning	Artificial Intelligence (AI) Concepts, Large Language Models (LLM)
Methodologies	Agile Methodologies, Object-Oriented Programming (OOP)

---

## Education

Telone Center for Learning | Harare, Zimbabwe

Diploma in Software Engineering | May 2021 - November 2024

- Gained a comprehensive understanding of software development life cycles, data structures, algorithms, and Object-Oriented Programming (OOP).
- Completed projects in Web Development, JavaScript, and Agile Methodologies.

Midlands State University | Gweru, Zimbabwe

Bachelor of Science Honours Degree in Software Engineering | August 2025 - Current

---

## Certifications

- AI Career Essentials | ALX Africa
  - Foundational Python Programming | Rita Africa
  - Foundational C# with Microsoft | freeCodeCamp + Microsoft Certification
  - Responsive Web Design | freeCodeCamp
-
